B.A.L. Holdings Limited

(Incorporated in the Cayman Islands with limited liability)

Third Quarterly Report For the nine months ended 31 July 2007

CHARACTERISTICS OF THE GROWTH ENTERPRISE MARKET ("GEM") OF THE STOCK EXCHANGE OF HONG KONG LIMITED (THE "STOCK EXCHANGE")

GEM has been established as a market designed to accommodate companies to which a high investment risk may be attached. In particular, companies may list on GEM with neither a track record of profitability nor any obligation to forecast future profitability. Furthermore, there may be risks arising out of the emerging nature of companies listed on GEM and the business sectors or countries in which the companies operate. Prospective investors should be aware of the potential risks of investing in such companies and should make the decision to invest only after due and careful consideration. The greater risk profile and other characteristics of GEM mean that it is a market more suited to professional and other sophisticated investors.

Given the emerging nature of companies listed on GEM, there is a risk that securities traded on GEM may be more susceptible to high market volatility than securities traded on the Main Board and no assurance is given that there will be a liquid market in the securities traded on GEM.

The principal means of information dissemination on GEM is publication on the Internet website operated by the Stock Exchange. Listed companies are not generally required to issue paid announcements in gazetted newspapers. Accordingly, prospective investors should note that they need to have access to the GEM website in order to obtain up-to-date information on GEM-listed issuers.

The Stock Exchange takes no responsibility for the contents of this report, makes on representation as to its accuracy or completeness and expressly disclaims any liability whatsoever for any loss howsoever arising from or in reliance upon the whole or any part of the contents of this report.

This report, for which the directors (the "Directors") of B.A.L. Holdings Limited (the "Company") collectively and individually accept full responsibility, includes particulars given in compliance with the Rules Governing the Listing of Securities on GEM of the Stock Exchange (the "GEM Listing Rules") for the purpose of giving information with regard to the Company. The Directors, having made all reasonable enquiries, confirm that, to the best of their knowledge and belief:-(1) the information contained in this report is accurate and complete in all material respects and not misleading; (2) there are no other matters the omission of which would make any statement in this report misleading; and (3) all opinions expressed in this report have been arrived at after due and careful consideration and are founded on bases and assumptions that are fair and reasonable.

MANAGEMENT DISCUSSION AND ANALYSIS

Business review

For the nine months ended 31 July 2007, turnover of the Group amounted to approximately HK\$126 million, representing an increase of approximately 14% as compared with that of the corresponding period in 2006. Profit attributable to shareholders for the nine months ended 31 July 2007 was approximately HK\$19 million, representing a decrease of approximately 19% from that of the corresponding period in 2006.

During this quarter, as expected by the management, the turnover of the traditional slimming business has fallen by approximately 28% as compared with last year. The main cause of the drop was due to the keen competitions and the diminishing of the effectiveness of advertising on all media. In the period, we have closed down the beauty center located at Grand Central Plaza, Shatin, and consolidated all its services to Citylink Plaza, Shatin centre; we have also closed down the beauty center located at Whampoa Garden, and has successfully diverted its client to our center in Mongkok.

Regarding the growth of the medical beauty center business, during the quarter, the turnover has increased by approximately 650% as compared with the corresponding period last year. This illustrates a continuous growth since the decision made by the management last year to introduce this business type to the group's operating activities. During the period we have also established business with a famous Thailand hospital which has vast experience in a wide range of surgical services including cosmetic plastic surgery. Our clients now can choose freely the destination to perform their surgery either in Hong Kong, Korea and Thailand. The management has also relocated a medical center from Wanchai to Causeway Bay, in order to cope with existing clients of the beauty center.
